

# 'White Delight' Creeping Phlox

Phlox subulata 'White Delight'

Ground hugging and reduces weeds.

Every spring and summer the evergreen cushions are smothered with pretty star-shaped bright crimson flowers. Ideal when planted at the front of a border, trailing from a crevice in a wall or for softening hard landscaping where it will creep and caress. Deer resistant and attractive to butterflies. Not fussy on soil conditions in sun or part shade.

Fully hardy perennial.
