

Northern Acclaim

This cultivar was developed at NDSU, where it outperformed other honeylocust cultivars in winter hardiness. Thornless and seedless, it has a rather upright form similar to Skyline® and gradually widens with age. This sturdy, vigorous tree is quite drought-resistant as well. Available in size #25 containers. Our inventory is always changing so please call for current availability.

Botanical name

Honeylocus

Gleditsia Triacanthos var. *Inermis* 'Harve'
